

Advance-Nilfisk Parts

Advance-Nilfisk Parts - Think about how tiresome it will be to tidy up your own house right after throwing a big party, with no help from cleaning equipment. Back in the day, the time carpets and upholstery had the dust beat out of them by hand; brushes, brooms and cleaning cloths were the leading cleaning supplies during that time.

P.A. Fisker, the man who founded Nilfisk-Advance, was actually an electrical engineer who really loved working with electrical motors. Establishing the company in 1906, he began to produce motors to drive drills, fans, machine tools and coffee grinders. Mr. Fisker's dream from the beginning was to own a global company marketing products worldwide.

The Nilfisk C1 was a tremendous breakthrough for the cleaning business. This ground breaking vacuum cleaner, invented by Mr. Fisker, weighed only 17.5 kilos and can be operated by a single person. This creation came in a time where numerous cleaning equipment were massive and needed at least 4 operators, thus, the Nilfisk C1 transformed everything and evolved the method we clean forever. The brain behind these very first cleaning machines remains unparalleled. Cleaning machines offer a brilliant solution to an ongoing dilemma; things get dirty and must be cleaned on a regular basis, without too much effort.

Slowly but steadily, Nilfisk-Advance grew through the years. During the 1980s, this expansion truly occurred when the business became a part of the NKT Group. Their new owners' determination and concentration made Nilfisk-Advance take a huge leap ahead within the industry, aiming to be among the biggest global players in the market of professional cleaning equipment. Nilfisk-Advance is now located in every part of the globe due to gradually acquiring many smaller companies to be able to develop their product selection and presence in new markets. They are really proud to offer a variety of cleaning solutions to fit each and every requirement.
